Dear Mr. Piniewski:

The Environmental Protection Agency (EPA) Region 6 has completed review of the Malone Cooperating Parties (MCP) Phase One Remedial Design (RD)/Remedial Action (RA) Completion Report. The remedial response is being conducted in three phases. The Report is a summary of the remedial construction conducted during Phase One; a more comprehensive RA Construction Completion Report, which incorporates all the specifics of construction for all Phases, including the as-built drawings, will be submitted to EPA Region 6 at the end of the remedial response.

EPA Region 6 approves the MCP Phase One RD/RA Completion Report. If you have any questions, please contact David Abshire at 214.665.7188; or via email at – abshire.david@epa.gov.

Sincerely,

A handwritten signature in blue ink, reading "John C. Meyer", is positioned above the printed name.
